

On Farm Insemination Contract

Horse care fees of \$12 a day start on the day the mare is delivered and ending on the day the mare is picked up. If requested, any deworming and vaccinations can be done at an extra charge.

The first collection and insemination fees are complimentary; however, any additional collections and inseminations will be accompanied by appropriate fees. Each additional collection will be \$100 and each additional insemination will be \$10.

All veterinarian expenses for the mare will be the responsibility of Mare Owner, including, but not limited to: ultrasounds, hormone injections, and palpation exams.

Mare Owner will deliver the mare in good health, proper weight, free of worms, vaccinated, and in sound breeding condition. Mares that are not halter broken will not be accepted.

Mare Owner will provide any special care needs of the mare to Stallion Owner prior to delivering the mare. In order to help protect the safety of the mare, the stallion, and Stallion Owner, Mare Owner will disclose any unusual/undesirable personality traits of the mare. This includes biting, kicking, striking, cribbing, etc.

Mare Owner is responsible for removing the mare from RX Acres in a timely manner after the breeding service is completed and if Mare Owner desires, the mare has been ultrasounded, at Mare Owner's expense, in foal.

It is requested that the mare be pregnancy checked again at 45 days and Stallion Owner notified of her pregnancy status.

Stallion Owner agrees to diligently try to settle mare; however, if mare fails to settle, for any reason, Mare Owner will hold Stallion Owner blameless. Mare Owner agrees to give Stallion Owner ample opportunity to settle mare. If care cannot be settled, Stallion Owner will allow a substitution of mares at its discretion.

All parties agree Stallion Owner, their agents, or employees are not liable for death, sickness, theft, or accident including consequential damages caused to the mare, and Mare Owner is not liable for death, sickness, or accident including consequential damages caused to the stallion.

If the mare has a foal at her side, all above terms regarding health and care of the mare will apply to the foal as well.

When Mare Owner signs and returns this contract it becomes a binding contract on both parties, subject to the above terms and conditions. This contract is not transferable or assignable. This contract is bound by the laws of the State of Indiana.

Mare Owner: _____

Date: _____

Please note:

All mares need do be accompanied by negative Coggins taken within year of arrival date
Remove hind shoes before shipping

Mare Information

Owner's name: _____ Phone number: _____

Address: _____
